**Southern California Edison** will be conducting a workshop in San Bernardino on Wednesday, May 25, 2011 for the New Solar Homes Partnership (NSHP). This is a great opportunity for builders, solar contractors, and all other interested parties to learn more about the program eligibility and application processes necessary to participate in the NSHP incentive program.

The NSHP is a ten-year, \$400 million incentive which provides incentives for the purchase and installation of photovoltaic (PV) solar systems on new, energy-efficient homes built in California's investor-owned electric utility service territories.

This workshop will include:

- NSHP eligibility requirements
- Application reservation and payment process documentation
- Additional energy efficiency incentive programs available (CAHP)
- Online web tool application submittal
- NSHP CECPV calculator
- Application clinic (for in-person attendees by appointment only)

### Who should attend:

- Solar Contractors, Retailers and Installers
- Builders/Developers
- HERS Raters
- Energy Consultants

We strongly encourage interested parties to attend NSHP training workshops in person. For those who are unable to attend, limited web-conferencing services will be available.

Please note that seating is limited and registration is required. Please register with Southern California Edison via e-mail at [nshp@sce.com] before **May 20, 2011**. The following information should be provided when registering: Participant's Name, Company Name, Title, E-Mail, and Phone Number. Please indicate if you will be participating in-person or via web conferencing.

**An application clinic will be held the last hour of the workshop. The application clinic will allow workshop participants to meet one-on-one with NSHP staff and discuss specific applications. Space is limited and an appointment must be scheduled prior to the event. If you would like an appointment for the NSHP application clinic, please indicate this in your email when registering.**
